

Diamond Drill

Out of the Past

January 29, 1959

The rapid growth of the instrumental music section of the Crystal Falls Schools has led to a problem in supplying instruments to pupils. A total of 230 students are enrolled with 65 members in the high school band, 67 in the junior high band, 48 in the sixth grade and another 50 in the fifth grade.

Members of Cub Scout Pack 508 toured the Diamond Drill Newspaper facility. Led by den mothers Mrs. Robert Johnson and Mrs. Ed Steinmetz the group included: Mike Casanova, Jim Flood, Glenn Johnson, Jon Makuck, James Steinmetz, That Stender and Jim Trepasso.

Ad: For a limited time only you can get a complete Bathroom Set, which includes fittings to the floor, at this special price! Here's what you get: supply pipes, seat, 19 x 17 lavatory with fittings, close-coupled toilet and a 5 foot recessed cast iron bath tub with fittings. All this for only \$149. Don't miss it, see it now at Malkin & Sons (11 Superior Avenue)

SHADES OF GUTENBERG—Pictured above is the inquisitive crew of Cub Scouts that invaded the Drill on January 16 with their "chases loaded to the quines" with questions concerning the backwards and forwards of job printing and newspaper publication. All are members of Den 3 of Cub Scout pack 508. They are, from left to right: Thad Stender, Mike Casanova, Glen Johnson, James Steinmetz, Jimmy Trepasso, Jim Flood and John Makuck. In the background are den mothers, Mrs. Ed Steinmetz and Mrs. Robert Johnson, who led the ferret mission through the Drill shop. This delegation was the first of two to visit the plant in recent weeks. Monday, Den 2 was guided on the second of the two tours by "jack of all printing trades", Ken Menapace.
