

Diamond Drill

Out of the Past

May 14, 1975

For those of you that sometimes think that you've got to be nuts to operate a business in Crystal Falls it should be a good indication of the often intangible but ever present attraction that Crystal Falls holds, when a man pulls up his roots which have been firmly attached to Australian soil for 25 years and travels almost 10,000 miles to settle here. Perhaps the fact that he is married to the former Charlyn Stockero a 1962 graduate of Crystal Falls High School who accepted a teaching position in Melbourne, Australia. Vernon "Po" Jones formerly from "down under" will be managing "The Pub Bar" (133 Superior) formerly Delores' Spa which along with his in-laws, Joe and Ellen Stockero, they purchased on April 22nd. Jones and his wife actually moved to Chicago three years ago where he accepted a position as a maintenance analyst for Mobil Oil Company. The couple are fixing up an apartment upstairs of the bar where they will reside.
