

Diamond Drill

Out of the Past

February 17, 1949

Two small youngsters narrowly escaped serious injury when their sled collided with a car in the alleyway which runs parallel and between Superior and Marquette Avenues. Riding together on a sled, Toni Ann Pivatto, 9 year old daughter of Mr. and Mrs. Tony Pivatto and 6 year old Tommy Anesi, son of Mr. and Mrs. John Anesi were bruised and shaken when the sled struck the rear wheel of a Buick sedan driven by Clarence Liberty. The accident occurred at the intersection of the alleyway and First Street behind the White Front Tavern (101 Superior)

The Crystal Falls School Board received good news from their Insurance carrier. The matter as to whether students could be carried to athletic events on school buses was resolved when the Insurance Company stated that the bus endorsement policy will provide coverage against bodily injury and property damage liability.
