

Diamond Drill

Out of the Past

April 11, 1924

The Crystal Falls Board of Education has hired Harry E. Potter to fill the position of the newly created boy's physical education teacher. Potter, a Manistique native and student at Kalamazoo Normal, will complete his studies in formal gymnastics and all branches of apparatus work in June. With a total of 500 boys in the central schools alone, physical education classes were handled part time by teachers engaged in other work.

Crystal Falls City Manager James Sanders has made requests to Mastodon and Mansfield Township authorities requesting contributions from them for the upkeep of the City owned cemetery. The expense for maintaining the cemetery has been thrust upon the residents of Crystal Falls yet many people from Mastodon and Mansfield have been buried there because the townships do not have their own cemetery.

Notice: All motor trucks, trailers and busses shall be limited to one half their carrying capacity while trunk lines and county roads are in a softened condition. All persons violating the law will be prosecuted. No exceptions. Iron County Road Commission, H.F. Larson, Engineer.
