

Diamond Drill

Out of the Past

November 20, 1897

Fred Snow came into Crystal Falls from the Shafer Location to attend divine worship services and to give his partner D.L. Clinch a ride home. Snow secured Arone Tesadri's horse, the same one that deserted Tesadri in Amasa recently. When he got to town he tied it in front of the Lockwood Hotel (400 Superior). The hotel evidently did not agree with horse and it had wandered away when Snow returned from services. Several people joined in the search but the whereabouts of the horse was unknown and the two men had to walk back to the Shafer Location. The horse arrived back at the Location early the next morning.

John Fisher is busy these days clearing the land behind and to the west of the Iron County Courthouse. His intentions are to make a farm out of the property.

Ad: We want ten railroad tie makers at once at our camp north of Mastodon depot on the Dunn Mine Railroad branch to work on hemlock timber. Eight cents per tie. Wilfred Prudhomme.
