

Diamond Drill

Out of the Past

July 21, 1960

Gloria Chervo, daughter of Mr. and Mrs. Emil Chervo, Crystal Falls, has been named instructor in the women's Physical Education Department at Northern Michigan College. A 1947 graduate of Crystal Falls High School, she received her bachelor's degree from Eastern Michigan University and began work on her masters degree at the University of Michigan.

Crystal Falls' Forest Park athletic field will be the home park for the three Iron County High School football teams for the 1960 season. Repairs and improvements to Nelson Field in Stambaugh will not be complete in time for this year's football season. The field was topped with a foot of topsoil this summer and reseeded and the turf has not developed sufficiently to allow play on the surface. With Crystal Falls, Stambaugh and Iron River teams using one field a total of eleven games will have to be scheduled for the Forest Park grounds. With each team normally playing four home games a scheduling conflict has forced Stambaugh to change a home game with Bessemer to the Gogebic County School's field.
