

Diamond Drill

Out of the Past

December 25, 1925

Ralph Premo, Amasa's enterprising barber, has erected a new barber shop building on the lot that lies between the Finnish Temperance Hall and Retallic's Garage. His shop is furnished with first class equipment and furnishings and intends to provide as good a service as can be had anywhere.

William Eldred has started to haul snow off the five blocks of Superior Avenue, the first time in history that the snow has been hauled away from the Main Street. The City of Crystal Falls has set up a community Christmas tree with many colored lights and a big star on top near the City Hall. Main Street merchants have a variety of window displays to celebrate the Holiday Season. City crews have flooded the school baseball field for an ice skating rink and a request has been made to City Officials to set aside of Crystal Avenue below Fifth Street for use as a sledding and coaster hill for the enjoyment of local residents of all ages.
