

Diamond Drill

Out of the Past

November 3, 1960

Approximately 500 children from toddlers through the seventh grade paraded in a circular course around the Crystal Falls School Gym Monday night showing off their Halloween costumes. The crowd of participants and spectators was the largest since the Halloween night program was first held several years ago. The entire lower bleachers were packed with contestants and the balcony was ringed four deep with relatives and friends of the costumed gremlins, hobos, robots and what not that were the focal point of the evening. As usual some of the most original and outlandish costumes were worn by the High School band members who were seated in the center of the gym floor. Following the judging apples and candy bars were distributed in the School lunch room.

Seven little kindergarten classmates and their teacher, Mrs. Mary Conery, were guests Friday morning at the Alpha School when Walter Salin, son of Mr. and Mrs. Clifford Salin, celebrated his fifth birthday. Classmates included: Robert Anderson, David Bjork, Michael Bjork, Lauri Cwik, Jim Franz, Tim Recla and Tina Yoki.

**HALLOWEEN ACTIVITY** was the greatest at the Forest Park gym, where an estimated 500 children, from toddlers through seventh grade age competed for prizes offered in several age groups for the funniest and best dressed contestants. The contestants marched around the costumed high school band, seated in the center of the gym floor, while the judges made their selections. (Drill photo)
