

Diamond Drill

Out of the Past

July 32, 1949

Forms were set this week and concrete poured for the foundation of the proposed Veterans of Foreign Wars headquarters on lower Superior Avenue (108 Superior) opposite the Martinson Bowling Alleys. The lot has long been vacant but various businesses have occupied the site dating back to the 1880's.

The long existing parking problem on Superior Avenue during busy hours has been considerably lessened by the completion of leveling and grading of a parking lot located at the Southwest corner of Crystal Avenue and North Third Street immediately back of the theatre building. The new lot was provided by a partnership between the Delft Theatre – Ejay Corporation and the City of Crystal Falls. The lot is owned by E.J. Bregger of Steven Point, Wisconsin former Crystal Falls theatre owner.

The Crystal Falls Municipal Hospital, opened in 1939 on South Third Street, has just ended its best year with a net gain of \$5,146. Total revenue during the year amounted to \$45,803 as compared with last years \$36,632.
