

Diamond Drill

Out of the Past

December 18, 1897

John Fisher has begun cutting the elm and basswood on the land back of the Iron County Courthouse to supply material to the Crystal Falls Hoop Company. The Hoop Company production has been handicapped for a long time for want of timber but with the recent hiring of John Hasselstrom to manage the woods operations things should improve.

None of the so called Chicago Supply Houses, most of which are swindling concerns of the first order, nor any department store in Chicago or grocery house in Milwaukee or Green Bay appears on the tax roll of Crystal Falls. Why they should be patronized by our local people, especially when we can boast of as good stores as can be found anywhere is more than we can figure out.

Ad: No matter what you want; no matter where you see it advertised; no matter what price anybody offers; I will supply identical merchandise for the same price or less. A. Lustfield – The Fair Store (228 Superior).
