

Diamond Drill

Out of the Past

November 16, 1923

Crystal Falls Schools Superintendent L.P. Holliday has started a move to establish a reading room and branch library in the City Hall. Mr. Holliday has secured the promise for use of the courtroom in the City building to house a portion of the school library books in addition to a large selection of papers and magazines. School librarian Mrs. Elmer Carlson will make arrangements to have a person on duty that will carefully supervise and keep order in the room which will be open to the public each night.

Posted Sign: Trespaser's will be persekuted to the full extent of too mean mongrel dogs which ain't never ben ovarly soshibil with strangers and a dubble barlet shotgun which ain't loaded with no sofy pillers. Im tirud of all this hel razing on my property.

Gasoline is now retailing in Crystal Falls at a price of 14.9 cents per gallon. The gasoline price war now covers the entire County. The two filling stations Standard Oil and across the street Flood's (419 Superior) are selling at this base price with other local garages slightly higher.
