

Diamond Drill

Out of the Past

November 16, 1950

Forty two Crystal Falls High School students have taken advantage of a two-day "hunting vacation" and will join their relatives and friends on the opening day of deer season hunting the fleet-footed whitetail. Each of the 42 boys were granted an "excused" absence upon presentation of his hunting license and written request from his parent or guardian to High School Principal Norbert Dahl.

Recent rule changes for the upcoming Michigan High School basketball season were presented to area coaches at a recent meeting. (1) A player charged with a personal foul must raise his hand at arm's length above his head. (2) A second free throw is to be awarded if a foul is committed for the purpose of profiting by it, the offending player does not make reasonable effort to avoid contact or the offended player is trying for a field goal and is not successful. (3) A substitute may enter the game only when the ball is dead and the clock not running. (4) The clock will be stopped for each jump ball. (5) Only the molded type basketball will be official.
