

Diamond Drill

Out of the Past

January 32, 1896

The Bloch's are moving into their recently acquired property at the southeast corner of Superior Avenue and Fourth Street locally known as the old Uren building. One of the choicest business locations in Crystal Falls, Bloch will consolidate their two stores moving "uptown" from a lower Superior Avenue location (108 Superior). A new ice house will be constructed in the rear of the lot after demolition of the existing barn. Martin is in the process of remodeling the upper floor into a habitable shape and will occupy the space as his residence.

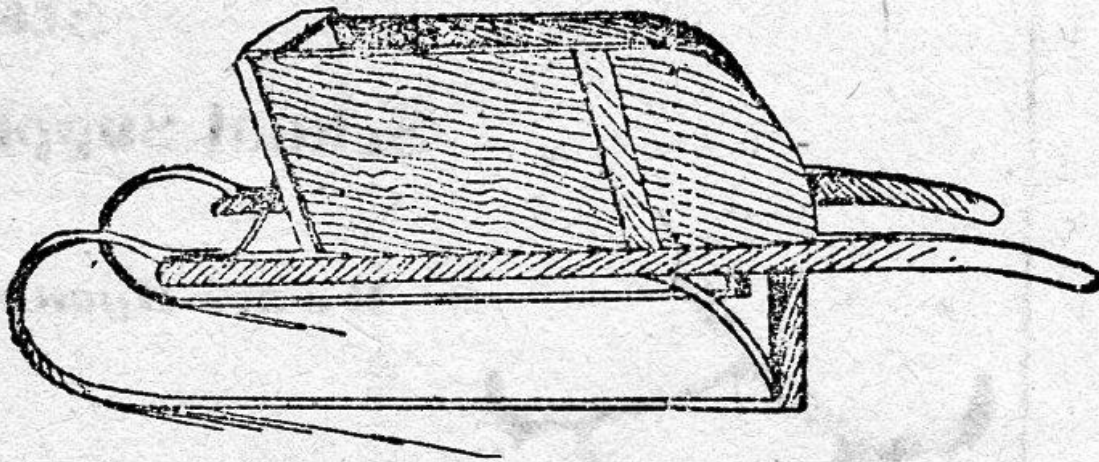

It would be very convenient to use a wheelbarrow in winter, were it not that the wheel does not roll well in the snow. It is relatively easy to attach runners to the barrow making it very serviceable around the farm.

A cat is lawless. A dog can be taught to come when called; a cat is heedless of the most persuasive invitations to present itself. The dog obedient to rule; a cat despises etiquette unless she has been taught to heed by a more or less severe lesson.

WINTER WHEELBARROW.

Very Serviceable About the Farm When
Snow Is on the Ground.

It would often be very convenient to use a wheelbarrow in winter, were it not that the wheel does not roll well in the snow, especially if it be at all soft. It is very easy to put the barrow on runners, as shown in the accom-

A WINTER WHEELBARROW.

panying illustration. The wheel is unshipped, and two runners that have been fitted by a blacksmith are screwed to the framework in the manner suggested. If the runners are firmly attached the winter wheelbarrow should prove very serviceable about a farm.—Orange Judd Farmer.
