

Diamond Drill

Out of the Past

February 26, 1959

The North Range Mining Company has dropped its lease on the mineral rights to the idle Warner Mine which straddles Crystal Falls and Hematite Township (Section 9 T44N/R33W). The mine first opened in 1915 and closed last year producing 3.4 million tons of iron ore from 6 levels, the deepest level extending down 1,742 feet. Hematite Township tax roll from last year listed the valuation of the mine property at \$375,000 and \$65,000 for Crystal Falls Township. The total valuation for the entire Hematite Township was \$699,147. Negotiations for the future valuation of the property are ongoing and are certainly going to adversely affect Hematite Township.

Miss Marion (Wee) Peterson, daughter of Mr. and Mrs. Mel Peterson (616 Harrison) was honored on the occasion of her sixth birthday. Guests in addition to her little sister Gwendy included: Sally Davis, Chris Eckola, Margie Ellingboe, Betty Friestrom, Sherry Groop, Roberta Harrington, Colleen McCash, Roberta Olson and Frances Tonkin.
