

Diamond Drill

Out of the Past

January 8, 1898

Dr. Reuben H. Darling of Milwaukee arrived in Crystal Falls and will practice medicine with his younger brother Abner M. Darling who has been in Crystal Falls since 1890. R.H. Darling, a physician of high standing, is well and favorable known to area residents having on several occasions taken his brother's place for short periods in the past.

Amasa Railroad Schedule: Chicago & Northwestern - #34 arrives 2:55PM, #33 departs 3:20 PM connecting at Florence for all points South (John Wormwood, Agent). Milwaukee & St. Paul - #103 going West 9:21 AM going East 5:01 PM connects at Channing for Chicago and Milwaukee (H. Dienberg, Agent).

Ad: Puncture – Proof Tire. Inventive minds have tried to produce a tire that could not be punctured within reason. Some tires have contained steel armor while others contained fluids which closed up the holes. Recently a tire was put on the market with the inner tube made of paper mache. It is not pneumatic in the sense of containing air under pressure but its resiliency comes from the elasticity of the paper mache core which renders the tire “puncture proof”.
