Ron Kroening, new owner of the Crystal Bowl Lanes (105 Superior), is adding a new bar addition inside his establishment. The work is being done by the "4-Way Builders" firm consisting of Bob Gervenak and Dave Stanek, graduates of the Forest Park High School building trades classes.

4-WAY BUILDERS have been busy of late putting a bar addition inside of the Crystal Bowl. 4-Way is a relatively new building firm, having established themselves in business within the past year. They have had several jobs in the local area, and this particular one included erection of interior partitioning and installation of bar equipment. Ron Kroening, manager of the local lanes, expects the bar to be open by the end of the year. Representing the firm in the photo are Bob Gervenak and Dave Stanek, who got their start as a result of the Forest Park building trades classes.
