

Diamond Drill

Out of the Past

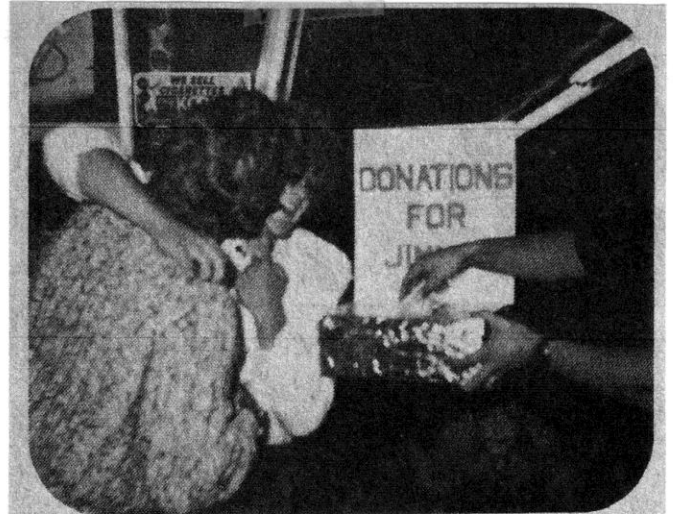

September 10, 1975

The Crystal Drive- In benefit for the Jim Fabbri Family is a great success. Charlie and Janie Bandaccarri owners of the popular root beer stand located on Hwy US-2 west of Crystal Falls has donated all proceeds less operating expenses, with many local businesses donating supplies, to the Chet and Faye Fabbri Family to help defray medical costs for their son who is being treated for neck injuries and paralysis at St. Vincent's Hospital in Green Bay following an automobile accident on August 18th. Charlie states that the Drive-In will never be the same after the new Car-Hop "femme fatales" Bryan LaChapelle, Dick Mettlach Jr. personal friends and Cousin Bill Santilli took over duties of the regular car-hops. There is also photographic documentation that for a donation of \$5 the lavishly attired Mettlach received a loving peck on the cheek from football tough guy Santilli and only suffering a mild "whisker burn" that did not require first aid. A total of \$1,840 was raised from the community that helps one of their own.

IT'LL NEVER BE THE SAME at the Crystal Drive-In again. These three lovelies took over the duties of the regular car-hops at Chuck and Janie Bandaccarrie's drive-in Monday evening to help kick off the Benefit Week for Jim Fabbri. The "girls" included gridiron terrors Bryan La-

Chapelle, Bill Santilli and Dick Mettlach, all members of the Forest Park Trojan top-rated Class D squad, and personal friends of Jim's. Our advice: Don't get fresh with these cuties, but do get out to the drive-in and order big this week. It'll mean a lot to Jim and his family.

IT COST Paul Palo \$5, and was worth it, says he, to see lavishly attired Dick Mettlach receive a loving peck from Bill Santilli during the

Jim Fabbri benefit last week at the Crystal Drive-In. Dick was later given first aid for a severe case of "whisker burn".
