

Diamond Drill

Out of the Past

February 27, 1974

The Diamond Drill Newspaper will have a new look when next week's issue will be printed by the offset process at Wisconsin Publishers, Inc. in Eagle River, Wisconsin. This will mark the first time since the first issue was printed on January 22, 1887 it will not be produced by equipment located in Crystal Falls. Where before each page had to be composed in solid lead, wood type and engraved metal plates next week's issue will be prepared as a layout which can be photographed by a large process camera in the Eagle River plant where the automatic darkroom and aluminum platemaking equipment can turn out the required material for our normal 10-page addition in 10 minutes with the total press run of some seven hours here in Crystal Falls will be reduced to about 10 minutes. Eight other weekly newspapers are printed at the Eagle River facility including the Iron River Reporter.

Ad: Texas Instruments TI-2500 portable, pocket sized electronic calculator. It adds, subtracts, multiplies and divides instantly all in a small package (5.5"x 3" x 1.75") and only weighing 12 ounces. New low price \$69.95. Now in stock at the Diamond Drill.

TEXAS INSTRUMENTS

THE TI-2500 PORTABLE ELECTRONIC CALCULATOR

This pocket-size calculator is designed to eliminate the eraser. It adds, subtracts, multiplies, divides or does all 4 in sequence. Instantly. Accurately. Electronically. You simply touch the numbers and functions exactly as you would say them or write them on paper. Yet it's smaller than a notepad (5½" x 3" x 1¾"). And not much heavier (12 oz.)

PORTABLE—has a rechargeable power pack that delivers at least 6 hours of continuous calculation. Battery recharger and vinyl carrying case.

OR PLUG IN—will recharge from normal house current overnight. Can be used while recharging.

FEATURES

- 8 Digit Display
- Calculations: addition, subtraction, multiplication, division, credit balances, chain multiplication and division, constant multiplication and division.
- Full Floating Decimal
- Overflow Indicator
