

Diamond Drill

Out of the Past

February 3, 1949

A program was presented at the February PTA Meeting in the Amasa High School Auditorium. Mrs. J.R. Davidson and her children Connie and Terry of Crystal Falls featured a piano duet, trombone solo, vocal and violin solos.

The archery class, taught by Eddie Chambers, held a tournament in the High School gymnasium, was won by Dale Brooks with a score of 260. The 8 inning contest required 6 arrows to be shot in every inning for each student. A total of 22 students are enrolled in the class.

The interest in building rustic summer homes or hunting camps has prompted R.C. Deckert, Michigan State College forester, to pass along a few tips on the care of logs used in the construction. Northern white cedar is the most durable wood growing in Michigan and should be cut and peeled in late fall or early winter. Careful piling will reduce the checking and cracking while seasoning plus the insect and fungi activity is minimized in the green wood.
