

Diamond Drill

Out of the Past

September 1, 1949

Four new homes are under construction in the Memory Lane District on Hwy 141 north of Crystal Falls. Arnold Aho, who operates the Memory Lane Resort on the Paint River, is constructing a new residence near the resort. Arthur Aho, Fred Michaud and Peter Rudis are also building houses in the area.

Recent home purchases in Crystal Falls City include William H. Tonkin, chief clerk at the Bristol Mine, who purchased the Frank Stoor residence at 808 Erie Avenue. Tonkin, who took over his duties at the Bristol this summer, will move his family here from Ishpeming where he has been working in the offices of the Greenwood Mine. The two story structure, owned by C.F. Richard, was vacated by the Stoor family who now occupy their newly constructed brick home at 831 Harrison Avenue.

Coffee will be served all day at the Paul Thompson residence, 615 Harrison Avenue as a feature of the grand opening of the Thompson's Grocery Store. The store is designed on the lines of the increasingly popular "neighborhood convenience" theme and will offer a line of groceries, cigarettes, candy, ice cream and school supplies.
