

Diamond Drill

Out of the Past

April 2, 1926

Miss Catherine Eaoll will be conducting classes among the girls of the Junior and Senior Crystal Falls High School on child hygiene and child care. All mothers are welcome to the meetings and those who cannot leave home without their children may bring them along to the school with them. The class will meet every Friday from 3:30PM to 4:30PM.

Iron County is going to feel the effects of Sheriff James A. Dickie's order to padlock several buildings throughout the County to stop repeated violations of the prohibition laws. Many of the businesses have been operated as "soft drink & ice cream parlors". In case the offending business owner fails to convince the Court that the building should not be closed an injunction will be made and the Sheriff will padlock the building for a period of one year. There is a possibility that the padlock law, which currently only relates to businesses, may in the future apply to private residences used by bootleggers and moonshine producers.
