

Diamond Drill

Out of the Past

December 26, 1973

A 12-team intramural girls' volleyball league has been initiated at Forest Park High School under the direction of physical education instructor Nancy Anderson. A total of 30 girls are signed up to participate in the Monday and Thursday contests.

Dr. Frederick Ludwig and Gerald Shoup, both of whom have wrestling in their backgrounds are making an effort to arouse interest in the sport among students in the Forest Park school system. The two volunteers hope that any interest could eventually justify consideration of addition of the sport to the interscholastic program.

The Michigan Department of Natural Resources will issue permits to cut firewood on State lands. The permit allows the removal of dead trees, stumps, slash, tops and some living trees as specifically marked by the DNR. The wood so gathered must be for the individual's use and is not to be resold.

The amicable dissolution of the legal firm Casanova & Schultz, formed last year, was announced by attorneys Oswald Casanova and Paul Schultz. They will pursue separate practices with offices located at 410 Superior Avenue.
