Diamond Drill

Out of the Past

September 15, 1976

Deer Lake, located 8 ½ miles Northeast of Amasa, has a new landing constructed on the East shoreline of the lake courtesy of the Michigan Department of Natural Resources. The $3,000 project recently completed included grading, rip-rap, erosion control, rock placement and seeding gives the public convenient boat access to the popular lake. Although the steep bank was altered somewhat the instructions nonetheless advise boaters to “carry boat down”.

The birth of a 6lb. 14oz baby born on Unit #16 (Crystal Falls) of the Iron County Ambulance Service highlighted the list of 76 calls for the service during the month of August. Ambulance driver, Bill St. John and attendant Shan Rucinski were accompanied on the call by third year medical student David Piesner who is currently working at the Crystal Falls Community Hospital. Piesner delivered the infant assisted by Rucinski. The total of 76 calls established a new record for the Iron County Ambulance Service, 58 for West Iron County and 18 for East Iron County.

DEER LAKE has a new landing site, courtesy of the Department of Natural Resources, which recently completed the project. The $3,000 price tag included grading, rip rap, erosion control, rock placement and seeding, and gives the public a convenient boat access to the lake. Although the steep bank was altered somewhat by bulldozing, the instructions nonetheless advise boaters to "carry boat down."
