

Diamond Drill

Out of the Past

April 9, 1926

Did you know that during 1926 there were 23 Crystal Falls basketball teams in action? They included the High School team, 4 High School class teams, 11 Junior High teams, Ramblers, Boy Scout and 5 Y.M.C.A teams. Some of the boys played on more than one team.

The Hematite Township Board has purchased an electric fire siren which will be placed upon the Amasa Town Hall to warn people in the case of fire. The siren is one of the latest makes and is similar to the one in use in Crystal Falls and Alpha. It is sufficiently loud to be heard as far away as the Warner Mine over a mile southeast of the Village.

The Mastodon Township Board of Education has decided to install another fire escape to the Alpha Porter School Building. There are two escapes on the building now, one being an adequate iron stairs to the rear of the building. It was thought best to install another fire escape on the east side of the building similar to the one on the west side.
